Francisco Pinto Berkemeier

Curriculum Vitae

fp409@cam.ac.uk
fberkemeier.github.io
Cambridge, United Kingdom
Nationality: Portuguese
DPOB: Macau, July 22, 1993

Research & Education

Sep 2022 – Present **Postdoctoral Researcher**, University of Cambridge, Department of Pathology & Department of Genetics.
Postdoctoral position in the Boemo Group, University of Cambridge. Supervisor: Michael A. Boemo.
Research topics: mathematical modelling and physics-informed machine learning to study genome-wide DNA replication dynamics, with a focus on replication stress, cancer-associated perturbations, and therapeutic response.

Sep 2018 – Nov 2022 **Doctor of Philosophy**, University College London, Department of Mathematics.
PhD in Mathematics. Supervisor: Karen M. Page. Second supervisor: Nadia Sidorova.
Research topics: mathematical modelling of the Notch-Delta signalling pathway and evolutionary dynamics.
Thesis title: *Cell-cell interactions in epithelial patterning: Notch-Delta signalling and evolutionary dynamics*.
Award date: 28 November 2022.

Aug 2016 – Jun 2018 **Master of Science**, King Abdullah University of Science and Technology, KSA.
MSc in Applied Mathematics and Computational Sciences. Supervisor: Diogo A. Gomes.
Thesis title: *A priori regularity of parabolic partial differential equations*.
Defense date: 10 April 2018. GPA: 3.71/4.00.

Sep 2012 – Jun 2016 **Bachelor of Science**, Instituto Superior Técnico, University of Lisbon.
BSc in Applied Mathematics and Computation (LMAC).

Teaching & Supervision

Oct 2023 – Present **Postdoctoral Research Associate and College Supervisor**, Queens' College, University of Cambridge.
Rokos PDRA at Queens' College, with responsibility for supervisions in Part 1A of the Cambridge Computer Science Tripos and Natural Sciences Tripos, including the following modules and respective topics:
- Math. Methods I: Vector Calculus, Differential and Integral Calculus, Probability and Statistics
- Math. Methods II: Ordinary and Partial Differential Equations, Multivariable Calculus, Applications to Physical Systems

Jun 2023 – Jun 2024 **Master's Supervision**, Department of Pathology, University of Cambridge.
Supervised a University of St Andrews integrated Master's student during their placement year research project on modelling DNA replication dynamics. The project culminated in a dissertation awarded the highest distinction (20/20) and a peer-reviewed publication [2].

Aug 2020 – Jan 2021 **Lecturer**, Applied Mathematics, University College London.
- Lecturer for MATH0049 – Mathematics for Engineers 1, covering differentiation, integration, ODEs, vectors, probability, statistics, and numerical methods. Duties included lecturing, exam and homework preparation, and marking.

Sep 2018 – Sep 2022 **Teaching Assistant**, Applied Mathematics, University College London.
Provided tutorial support, exam/homework marking, and office hours for undergraduate modules:
- MATH0045: Calculus and Linear Algebra
- MATH0048: Mathematical Analysis

Sep 2017 – Jun 2018 **Teaching Assistant**, Applied Mathematics, King Abdullah University of Science and Technology.
Delivered tutorials, graded assignments, and supported Master's-level courses, including:
- AMCS 131: Vector Calculus and Differential Equations;
- AMCS 151: Linear Algebra
- AMCS 152: Applied Numerical Methods
- AMCS 101: Engineering Mathematics

Sep 2015 – May 2016 **University-level Tutoring**, Pure and Applied Mathematics, Lisbon, Portugal.
Tutored university students through tutoring centres and the IST mathematics student association (NMATH), focusing on calculus, linear algebra, and mathematical analysis.

Publications

[1] Berkemeier, F., Cook, Peter R., and Boemo, Michael A. *DNA replication timing reveals genome-wide features of transcription and fragility*. Nature Communications (2025). doi.org/10.1038/s41467-025-59991-w.

★ *Selected for Nature Communications Editors' Highlights in Genetics, Genomics and Epigenetics, recognising the 50 most outstanding recent publications in the field.*

Talks, Workshops & Internships

Mar 2025 **CONNECTS-UK**, Jury member in STEM contest, Corpus Christi College, Cambridge.
Participation in a research pitch competition featuring STEM researchers from the UK and EU.

Nov 2024 **Research in Genetics Day 2024**, Poster Session, Department of Genetics, University of Cambridge.
Presentation of the poster *DNA replication timing reveals features of transcription and fragility*.

Oct 2024 **Research Pitch**, LUSO 2024, PARSUK, London.
Presentation on current research at the Portuguese Association of Students and Researchers in the UK (PARSUK).

Sep 2024 **UK DNA Replication Meeting 2024**, Poster Session, Churchill College, University of Cambridge.
Presentation of the poster *A Whole-Genome Mathematical Model of DNA Replication*.

May 2024 **Invited Talk**, Mathematics and Applications Colloquium - AMCS (CEMSE), King Abdullah University of Science and Technology.

Mar 2024 **Plenary Talk**, Pathology Annual Symposium, Li Ka Shing Centre, Cancer Research UK Cambridge Institute.

Mar 2024 **SCR Talk**, MCR-SCR Research Talks, Queens' College, University of Cambridge.

Mar 2024 **Research Seminar**, Genetics Internal Seminars, Department of Genetics, University of Cambridge.

Jan 2024 **UCL Talk**, Mathematical Biology Seminar, Department of Mathematics, University College London.

Nov 2023 **Research in Genetics Day 2023**, Poster Session, Department of Genetics, University of Cambridge.
Presentation of the poster *A Whole-Genome Mathematical Model of DNA Replication*.

Jul 2023 **OxML 2023**, Machine Learning Summer School, Mathematical Institute, Oxford.
Participation in the Oxford Machine Learning Summer School, organized by AI for Global Goals, with training focused on statistical/probabilistic ML, representation learning, reinforcement learning, causal inference, vision & NLP.

Sep 2022 **ECMTB 2022 Talk**, European Conference On Mathematical and Theoretical Biology, Heidelberg University.
Participation on the mini-symposium *Bistable genetic switches across time, space, and disciplines* at the ECMTB 2022. Title of talk: *The dynamics of long-range signalling via the Notch-Delta pathway*.

Apr 2022 **SLCU Talk**, Sainsbury Laboratory, University of Cambridge.
Invited talk at Dr Henrik Jönsson's research group meeting on PhD research, entitled *Long-range signalling and patterns in the fly wing*.

Nov 2021 **IPLS Talk**, Institute for the Physics of Living Systems, UCL.
Talk and discussion on mathematical models of signalling pathways vs stretch-induced deformations on the wing disc, entitled *How stretch affects patterning in the fly wing*.

Nov 2021 **Math Bio Talk**, Departmental Computational Biology Group, UCL.
Presentation at the multi-disciplinary computational biology group meeting on the mathematical analysis of long-range signalling systems, including linear and stochastic stability analysis and applications. Supervised by Philip Pearce.

Oct 2020 & Oct 2021 **Poster Competition Panel Member**, Pure and Applied Math Undergraduate Projects, UCL.
Supervision of the annual UCL mathematics undergraduate poster competition, where students present their projects on differential geometry and dynamical systems applied in studying the evolution of pandemics.

April 2020 **Optimisation Article**, Chalkdust Magazine.
Published article on the inter-university mathematical journal *Chalkdust*, on a brief optimisation problem.

Mar 2014 – Jul 2014 **Internship**, Visiting Student Research Program, KAUST, Saudi Arabia.
Undergraduate internship and research project with a focus on Mean-Field Games, PDE and Functional Analysis. Supervised by Prof. Diogo A. Gomes.

Tests & Certifications

Sep 2018 – May 2019 **London Mathematical Society Courses**, Attendance and completion of four mathematical courses as part of the London Taught Course Centre (LTCC), via the London Mathematical Society. These included: Dynamical Systems, Stochastic Processes, Models and Measure Theory.

Dec 2018 **Teaching Training**, Completion of the *Teaching Undergraduates Mathematics or Statistics* (TUMIPS) training program at the Institute of Education, University College London.

Oct 2017 **TOEFL**, Score: 108/120.

Skills & Abilities

Programming Python, PyTorch, MatLab, R, Wolfram Mathematica, C, C#, C++, Beacon Calculus.

Software Writing: LaTeX, MS Office. Teaching: Crowdmark, Blackboard Learn, STACK, WISEflow.

Languages Portuguese (Native Speaker), English (fluent), comfortable with Spanish and French.

Extracurricular Activities

2025–Present **Ambassador, Portuguese Association of Students and Researchers in the UK (PARSUK)**.
As a PARSUK Ambassador, I help strengthen the network and activities of Portuguese researchers and students in the UK, fostering connections and supporting collaborative initiatives.

2023–2025 **Presidency & Vice-presidency, Cambridge University Portuguese Society**.
As former president and vice-president of the Cambridge University Portuguese Society (CUPor), I led a dynamic cultural community, coordinating a diverse range of events, managing an executive committee, organizing sociocultural events, and advocating for Portuguese students at the university and beyond.

2018–2022 **Student Union, University College London**.
Member of the Classical Guitar, Chamber Music and Hiking Societies at UCL.

2005–Present **Classical Guitar**.
Experience in playing various styles including Classical, Jazz, and Bossa Nova. Contributed to group musical arrangements, teaching via the Art's Office (KAUST), and participated in solo and ensemble performances.

2005–2012 **Almada's Music Academy, Portugal**.
Completed undergraduate studies in classical guitar (8th degree). Participation in several guitar contests and talent shows, winning first and second prizes, as well as honorable mentions.

2012–2016 **Volunteering**.
Participation in several volunteering activities, such as elderly home visits, beach cleaning and organization of homeless dinners. Leadership in a non-governmental volunteering organization in workshops in Portugal and Germany.

2005–Present **Sports**.
Amateur level sports, including football, tennis, swimming and skiing. 2 years of football at federate level.
