

FRANCISCO PINTO BERKEMEIER

CURRICULUM VITAE

✉ fp409@cam.ac.uk
🌐 fberkemeier.github.io
🏠 Cambridge, United Kingdom
Nationality: Portuguese
DPOB: Macau, July 22, 1993

Research & Education

- Sep 2022 – **Postdoctoral Researcher**, UNIVERSITY OF CAMBRIDGE, Departments of Pathology & Genetics.
Present Postdoctoral position in the Boemo Group, University of Cambridge. Supervisor: Prof. Michael A. Boemo.
Research topics: mathematical modelling and physics-informed machine learning to study genome-wide DNA replication dynamics, with a focus on replication stress, cancer-associated perturbations, and therapeutic response.
- Sep 2018 – **Doctor of Philosophy**, UNIVERSITY COLLEGE LONDON, Department of Mathematics.
Nov 2022 PhD in Mathematics. Supervisor: Prof. Karen M. Page. Second supervisor: Prof. Nadia Sidorova.
Research topics: mathematical modelling of the Notch-Delta signalling pathway and evolutionary dynamics.
Thesis title: *Cell-cell interactions in epithelial patterning: Notch-Delta signalling and evolutionary dynamics*.
Award date: 28 November 2022.
- Aug 2016 – **Master of Science**, KING ABDULLAH UNIVERSITY OF SCIENCE AND TECHNOLOGY, KSA.
Jun 2018 MSc in Applied Mathematics and Computational Sciences. Supervisor: Prof. Diogo A. Gomes.
Thesis title: *A priori regularity of parabolic partial differential equations*.
Defense date: 10 April 2018.
- Sep 2012 – **Bachelor of Science**, INSTITUTO SUPERIOR TÉCNICO, University of Lisbon.
Jun 2016 BSc in Applied Mathematics and Computation (LMAC).

Teaching & Supervision

- Sep 2025 – **Guest Lecturer and Examiner**, DEPARTMENTS OF PATHOLOGY & GENETICS, University of Cambridge.
Present Lecturer for Modelling with PDEs in Computational Biology, as part of the NST Part III Systems Biology course, introducing reaction-diffusion models in biology. The lectures cover the origin of the equations, analytical and numerical approaches to their solution, and key applications in population dynamics, pattern formation, and tissue modelling. Contributed to exam preparation for the course. In parallel, served as examiner for first-year PhD progression vivas, assessing research plans, methodology, and scientific development.
- Mar 2026 – **College Research Associate**, EMMANUEL COLLEGE, University of Cambridge.
Present Early-career College research affiliation, contributing to the academic and interdisciplinary life of the College through participation in scholarly events, teaching, and engagement with the wider collegiate community.
- Oct 2023 – **Postdoctoral Research Associate and College Supervisor**, QUEENS' COLLEGE, University of Cambridge.
Oct 2025 Rokos PDRA at Queens' College, with responsibility for supervisions in Part 1A of the Cambridge Computer Science Tripos and Natural Sciences Tripos, including the following modules and topics: Mathematical Methods I: Vector Calculus, Differential and Integral Calculus, Probability and Statistics; Mathematical Methods II: Ordinary and Partial Differential Equations, Multivariable Calculus, Applications to Physical Systems.
- Jun 2023 – **Master's Supervision**, DEPARTMENT OF PATHOLOGY, University of Cambridge.
Jun 2024 Supervised an integrated Master's student from the University of St Andrews on a year-long research project in DNA replication modelling at the Department of Pathology, University of Cambridge. The work resulted in a dissertation awarded the highest distinction (20/20) and led to a peer-reviewed publication [4].
- Aug 2020 – **Lecturer**, APPLIED MATHEMATICS, University College London.
Jan 2021 Lecturer for MATH0049 - Mathematics for Engineers 1, covering topics such as differentiation, integration, ordinary differential equations, vectors, probability, statistics, and numerical methods. Responsibilities included delivering lectures, preparing exams and homework assignments, and marking.
- Sep 2018 – **Teaching Assistant**, APPLIED MATHEMATICS, University College London.
Sep 2022 Provided tutorial support, exam/homework marking, and office hours for undergraduate modules: Calculus and Linear Algebra (MATH0045); Analysis 1 & 2 (MATH0003 & MATH0004); Mathematical Methods 1, 2, & 3 (MATH0010, MATH0011 & MATH0016); Newtonian Mechanics (MATH0009).
- Sep 2017 – **Teaching Assistant**, APPLIED MATHEMATICS, King Abdullah University of Science and Technology.
Jun 2018 Delivered tutorials, graded assignments, and supported Master's-level courses, including: Vector Calculus and Differential Equations (AMCS 131); Linear Algebra (AMCS 151); Applied Numerical Methods (AMCS 152); Engineering Mathematics (AMCS 101).

Publications

- [1] Pfuderer, P.L., Berkemeier, F., Nassar, J., Crisp, A., Jaworski, J.J., Moore, J., Sale, J.E., and Boemo, M.A. (2026). A genome language model for mapping replication origins. *Nature Communications* (under review). doi.org/10.64898/2026.01.29.702604.

Research Funding Awards, Prizes & Distinctions

- 2026 **PARSUK-FCT Bilateral Research Fund (BRF)**, Competitive research grant awarded for *Decoding DNA replication across the cancer epigenome*, a UK–Portugal collaborative project between UCIBIO, NOVA School of Science and Technology, and the University of Cambridge.
- 2026 **Best Talk Award, runner-up**, Pathology Annual Symposium, University of Cambridge. Awarded for the plenary talk *A genome language model for mapping DNA replication origins*.
- 2025 **Nature Communications Editors' Highlights**, The article *DNA replication timing reveals genome-wide features of transcription and fragility* [3] was selected for Nature Communications Editors' Highlights in Genetics, Genomics and Epigenetics, recognising the 50 most outstanding recent publications in the field.
- 2025 **Best Poster Prize**, Research in Genetics Day 2025, Department of Genetics, University of Cambridge. Awarded for the poster *A computational framework for mapping DNA replication kinetics*.

Talks, Workshops & Internships

- May 2026 **Invited talk**, CAMBRIDGE AI CLUB FOR BIOMEDICINE, Jeffrey Cheah Biomedical Centre, Cambridge.
- Apr 2026 **Research seminar**, SEMINÁRIO DE MATEMÁTICA APLICADA E ANÁLISE NUMÉRICA, Department of Mathematics, Instituto Superior Técnico.
Presentation of the talk *Inverse problems and machine learning in DNA replication*.

- Mar 2026 **Research seminar**, CELL CYCLE CONFERENCE 2026, Online.
Presentation of the talk *A genome language model for mapping DNA replication origins*.
- Mar 2026 **Plenary Talk**, PATHOLOGY ANNUAL SYMPOSIUM, Magdalene College, University of Cambridge.
Presentation of the talk *A genome language model for mapping DNA replication origins*.
★ Awarded Best Talk Award (runner-up).
- Dec 2025 **Poster Session**, RESEARCH IN GENETICS DAY 2025, Department of Genetics, University of Cambridge.
Presentation of the poster *A computational framework for mapping DNA replication kinetics*.
★ Awarded Best Poster Prize.
- Aug 2025 **Research Seminar**, BIRMINGHAM MEDICAL SCHOOL, University of Birmingham.
- Mar 2025 **CONNECTS-UK**, JURY MEMBER IN STEM CONTEST, Corpus Christi College, Cambridge.
Participation in a research pitch competition featuring STEM researchers from the UK and EU.
- Nov 2024 **Research in Genetics Day 2024**, POSTER SESSION, Department of Genetics, University of Cambridge.
Presentation of the poster *DNA replication timing reveals features of transcription and fragility*.
- Oct 2024 **Research Pitch**, LUSO 2024, PARSUK, London.
Presentation on current research at the Portuguese Association of Students and Researchers in the UK (PARSUK).
- Sep 2024 **UK DNA Replication Meeting 2024**, POSTER SESSION, Churchill College, University of Cambridge.
Presentation of the poster *A Whole-Genome Mathematical Model of DNA Replication*.
- May 2024 **Invited Talk**, MATHEMATICS AND APPLICATIONS COLLOQUIUM - AMCS (CEMSE), KAUST.
- Mar 2024 **Plenary Talk**, PATHOLOGY ANNUAL SYMPOSIUM, Li Ka Shing Centre, Cancer Research UK.
- Mar 2024 **SCR Talk**, MCR-SCR RESEARCH TALKS, Queens' College, University of Cambridge.
- Mar 2024 **Research Seminar**, GENETICS INTERNAL SEMINARS, Department of Genetics, University of Cambridge.
- Jan 2024 **UCL Talk**, MATHEMATICAL BIOLOGY SEMINAR, Department of Mathematics, University College London.
- Nov 2023 **Research in Genetics Day 2023**, POSTER SESSION, Department of Genetics, University of Cambridge.
Presentation of the poster *A Whole-Genome Mathematical Model of DNA Replication*.
- Jul 2023 **OxML 2023**, MACHINE LEARNING SUMMER SCHOOL, Mathematical Institute, Oxford.
Participation in the Oxford Machine Learning Summer School, organized by AI for Global Goals, with training focused on statistical/probabilistic ML, representation learning, reinforcement learning, causal inference, vision & NLP.
- Oct 2022 **CMP Seminar**, CELLULAR AND MOLECULAR PATHOLOGY SEMINAR SERIES, University of Cambridge.
Talk on Notch-Delta long-range signalling dynamics via cell protrusions.
- Sep 2022 **ECMTB 2022 Talk**, EUROPEAN CONFERENCE ON MATHEMATICAL AND THEORETICAL BIOLOGY, Heidelberg University.
Participation on the mini-symposium *Bistable genetic switches across time, space, and disciplines* at the ECMTB 2022. Title of talk: *The dynamics of long-range signalling via the Notch-Delta pathway*.
- Apr 2022 **SLCU Talk**, SAINSBURY LABORATORY, University of Cambridge.
Invited talk at Dr Henrik Jönsson's group meeting, entitled *Long-range signalling and patterns in the fly wing*.
- Nov 2021 **IPLS Talk**, INSTITUTE FOR THE PHYSICS OF LIVING SYSTEMS, UCL.
Talk and discussion on mathematical models of signalling pathways vs stretch-induced deformations on the wing disc, entitled *How stretch affects patterning in the fly wing*.
- Nov 2021 **Math Bio Talk**, DEPARTMENTAL COMPUTATIONAL BIOLOGY GROUP, UCL.
Presentation at the multi-disciplinary computational biology group meeting. Supervised by Philip Pearce.
- Oct 2020 & Oct 2021 **Poster Competition Panel Member**, PURE AND APPLIED MATH UNDERGRADUATE PROJECTS, UCL.
Supervision of a poster competition on differential geometry and dynamical systems applied in pandemic modelling.
- April 2020 **Optimisation Article**, CHALKDUST MAGAZINE.
Published article on the inter-university mathematical journal *Chalkdust*, on a brief optimisation problem.
- Mar 2014 – Jul 2014 **Internship**, VISITING STUDENT RESEARCH PROGRAM, KAUST, Saudi Arabia.
Undergraduate internship and research project with a focus on Mean-Field Games, PDE and Functional Analysis. Supervised by Prof. Diogo A. Gomes.

Tests & Certifications

- Sep 2018 – May 2019 **London Mathematical Society Courses**, Attendance and completion of four mathematical courses as part of the London Taught Course Centre (LTCC), via the London Mathematical Society. These included: Dynamical Systems, Stochastic Processes, Models and Measure Theory.
- Dec 2018 **Teaching Training**, Completion of the *Teaching Undergraduates Mathematics and Statistics* (TUMIPS) training program at the Institute of Education, University College London.
- Oct 2017 **TOEFL**, SCORE: 108/120.

Skills & Abilities

Programming	PYTHON, PYTORCH, MATLAB, R, WOLFRAM MATHEMATICA, C, C#, C++, BEACON CALCULUS, DNASCENT, BATCH PROGRAMMING.
Software	Writing: L ^A T _E X, MS OFFICE. Teaching: CROWDMARK, BLACKBOARD LEARN, STACK, WISEFLOW, INSPIRA.
Languages	Portuguese (Native Speaker), English (fluent), comfortable with Spanish and French.

Extracurricular Activities

2025–Present	Ambassador, Portuguese Association of Students and Researchers in the UK (PARSUK). PARSUK Ambassador, helping strengthen the network and activities of Portuguese researchers and students in the UK, fostering connections and supporting collaborative initiatives.
2023–2025	Presidency, Vice-presidency, and Affiliation, Cambridge University Portuguese Society. Former president and vice-president of the Cambridge University Portuguese Society (CUPor), leading a dynamic cultural community, coordinating a diverse range of events, managing an executive committee, organizing sociocultural events, and advocating for Portuguese students at the university and beyond. Now active as a regular member.
2024–Present	Affiliate Researcher, Cambridge-Africa Programme. Member of the Cambridge-Africa Researchers' Database, supporting equitable research collaborations and capacity building with African institutions, and engaged in mentoring opportunities with African students and researchers.
2018–2022	Student Union, University College London. Member of the Classical Guitar, Chamber Music and Hiking Societies at UCL.
2005–Present	Classical Guitar. Experience in playing various styles including Classical, Jazz, and Bossa Nova. Contributed to group musical arrangements, teaching via the Art's Office (KAUST), and participated in solo and ensemble performances.
2005–2012	Almada's Music Academy, Portugal. Completed undergraduate studies in classical guitar (8th degree). Participation in several guitar contests and talent shows, winning first and second prizes, as well as honorable mentions.
2012–2016	Volunteering. Participation in several volunteering activities, such as elderly home visits, beach cleaning and organization of homeless dinners. Leadership in a non-governmental volunteering organization in workshops in Portugal and Germany.
2005–Present	Sports. Amateur level sports, including football, tennis, swimming and skiing. 2 years of football at federate level.
